## **Seminole Tribe of Florida Awards Contract to ATM**

### ***Firm to provide continuing water resources and ecological services***

Gainesville, FL – The Seminole Tribe of Florida's Water Resource Management Department has awarded a contract to Applied Technology & Management, Inc. (ATM) to provide continuing water resources and ecological services on all tribal lands in Florida.

This award was based on ATM's performance on previous Tribe projects including developing a Wetland Management Plan for the Big Cypress Seminole Indian Reservation in Hendry County and a comprehensive water resources and wetland management plan for the entire 55 square mile Brighton Seminole Indian Reservation in Glades County.

Related ATM experience includes a hydrologic restoration of a 600-acre cypress swamp and marsh for the Okeechobee Landfill. The firm also recently completed a large-scale ecological study of the tidal freshwater marshes of the Savannah National Wildlife Refuge along the lower Savannah River in Georgia.

ATM was chosen due to its extensive experience with environmental, ecological, and water resource issues in the Southeast.

### **About ATM**

**Applied Technology & Management, Inc.** (ATM, [www.appliedtm.com](http://www.appliedtm.com)) is a marine, coastal, environmental, and water resources engineering firm that specializes in marina and waterfront development and management, beach restoration and renourishment, hydrological modeling, environmental permitting, wetland permitting and management, EA/EIS (NEPA Compliance) & EIA, site/civil development, GIS services, market studies and analysis, upfront conceptual planning and design, financial analysis with proprietary pro formas, and capital financing.
